NORFOLK, VIRGINIA

CHAMBER OF COMMERCE—BOARD OF TRADE

NORFOLK, VIRGINIA, known with manufacturing and shipping interests as THE CENTRAL ATLANTIC PORT, is located midway on the Atlantic Seaboard, about 320 miles south of New York City, and approximately 175 miles south of Baltimore, built on the Elizabeth River at its entrance to Hampton Roads, the country's greatest harbor. The harbor of Norfolk has a shore frontage of about fifty miles; is about two hours running time to the Virginia Capes (Ocean Bar), and which port is the natural terminus of regularly established trade lines crossing the Atlantic Ocean, serving the ports in Europe as well as coastwise trade.

ACTUAL CENSUS

Norfolk population, as of December 31, 1920.....	117,603
Norfolk, Portsmouth and Norfolk County December 31, 1920.....	229,350
Within territory eighteen miles.....	300,000
Metropolitan or shopping population (estimated).....	425,000

FINANCIAL (1920)

Norfolk and Portsmouth Banks:	
Capital.....	\$ 9,798,616.00

Season 1920.....	\$12,482,378	Season 1919.....	\$7,107,303
------------------	--------------	------------------	-------------

THIS HARBOR OPENS FOR COMMERCE THE ENTIRE YEAR

Some of the principal commodities moving for export, coastwise and inland, both outbound and inbound, through the port of Norfolk during 1918 being as follows:

Agricultural Implements	Grain	Peanuts
Agricultural Products	Hay	Petroleum
Beans	Hides	Pyrites
Boots and Shoes	Lime	Piling
Brick	Live Stock	Pig Iron
Coal	Lumber and Logs	Railroad Ties
Cork	Iron and Steel	Rosin
Canned Goods	Molasses	Salt
Cement	Meats	Shells, Oysters
Cotton Products	Naval Stores	Sugar
Cotton Seed Products	Nitrates	Tin
Dry Goods	Oil	Tobacco
Fertilizer	Packing House Products	Wood Products
Flour	Gold Coin	Zinc

By reason of excellent shipping facilities at the port of Norfolk, the shipping industry has shown a very healthy growth. The three great coal-carrying roads terminating at the Port of Hampton Roads provide facilities now unequalled at any other coal port in the world for bunking and loading cargo coal. The port of Hampton Roads (Norfolk) is the most important coaling station on the Atlantic coast, and in consequence thereof this harbor is visited by vessels of all types for cargo and bunker coal.

This harbor is always free from ice and dangerous currents; it never experiences tornadoes nor high winds and is a veritable refuge for all vessels in time of bad weather at sea. The fact that the harbor of Hampton Roads (Norfolk) is the most spacious on the Atlantic coast; the least congested and the most accessible the year round to all foreign and domestic shippers are important factors in bringing this port to the very front in shipping circles. Miles and miles of undeveloped water front, on some of which are now being built massive piers to take care of the rapidly growing business, makes it safe to say that from now on, and for years to come, Norfolk can take care

of the overflow commerce of other cities, at the same time building up a shipping industry which will make for itself a name second to none of any city on any harbor or navigable stream in the world.

INDUSTRIAL

The approximate moneys invested in private manufacturing enterprises in this territory amount to \$80,000,000.

Steam coal, mined in the New River and Pocahontas coal fields immediately available to Norfolk, are higher in desirable qualities than any other mined in the country. The supply of this coal is abundant, and can be laid down at Norfolk at a freight rate advantageous to the consumer. These coal regions are on the rails of transportation lines running directly to Norfolk, assuring the consumer best possible delivery.

Electric power to large consumers can be had as low as six mills per KWH.

Gas and water are good and can be had at reasonable rates.

Labor, under normal conditions, is plentiful, both skilled and common.

Climate is equal here throughout the year—no extremes in winter or summer, and out-of-doors work can be carried on throughout the year with little or no inconvenience. It is estimated that about 55,000 workers here earn upwards of \$47,000,000 per annum.

Some of the principal industries are as follows:

Shipbuilding	Peanut Cleaning	Knitting Mills
Railroad Shops	Copper Smelting	Veneer Mills
Machine Shops	Creosoting	Agricultural
Iron and Steel	Cotton Mills	Sea Foods
Fertilizer	Cotton Compressing	Government Operations
Lumber	Cotton Tie and Bagging	Oil
Silk Mills	Manufacturing	Cargo and Bunker Coal
Steel Chain	Tobacco Manufacturing	

EDUCATION

Sixty-seven public schools (pupils).....	26,800
Value of School property.....	\$4,750,000
Night school pupils.....	2,727

The public school system in this section is of the very best—modern training, being conducted in all branches, and buildings are of the most improved type.

MUNICIPAL

Tax rate, county, per hundreds based on 50 per cent valuation of property.....	\$2.75
City, including county, per hundred based on 50 per cent valuation of property.....	\$2.00
Paved streets, miles.....	200
Unpaved streets.....	224
Sewers, miles.....	124½
Parks, acres.....	180
Playgrounds, acres.....	400
Public libraries.....	6
Charitable institutions.....	3
Fire Department, modern, motorized.....	19
Police Department modern.....	

The city has recently acquired about 300 acres of land along Bush Bluff with 2,400 feet frontage on the Port Warden Line—all for industrial and commercial purposes.

The city is prepared to lease land, or construct buildings and leave land and buildings to industries worth while.

The city of Norfolk has adopted the Commission Manager form of government.

TRANSPORTATION

Trunk Line Railroads.....	8
Belt Line Railroad (industrial).....	1
Steamship Lines, coastwise and bay.....	20
Steamship Lines, foreign freight passenger.....	108
Electric Railways, including interurban, miles of track.....	198

Freight rates are advantageous.

Norfolk is indeed enviably located as regards transportation facilities. The great array of railroads, all connected by an industrial belt line, assure the shipper or receiver of freight, if he be located on the belt line, the flat Norfolk rates; in addition, the water lines and electric railways give the manufacturer or shipper service par excellence.

GEOGRAPHICAL

"Central Atlantic Port," being midway on the Atlantic Seaboard, located on Hampton Roads, America's greatest harbor, in the center of the greatest truck garden section of the United States.

NORFOLK, VA.

See What You Buy

Why "go it blind"? Why buy something you know nothing about simply because it promises big returns?

You can see the property that secures your guarantee mortgage and you can use some judgment as to its value. It pays **6 per cent** and cannot be re-organized away from you.

Your interest and the return of your principal is guaranteed by this Company.

FIRST MORTGAGE BONDS in denominations of \$100, \$500, \$1,000 and \$5,000 in coupon form. Interest payable semi-annually.

NEUROLOGY

The Evils of the Eye Strain Conquered

Nervous energy or vitality operates the human machine just as steam or electricity operates the mechanical machine; any excessive demand upon this vital energy or disturbance of its regular flow is certain to show as a functional derangement of some of the organs. We point to the fact that the human eye consumes ten per cent. of all the power generated in the brain, that is, the eyes are entitled to that much by Nature's assignment, but when they are defective they will involuntarily get the upper hand of the rest of the nervous system and use up more nerve energy than they are entitled to, sometimes as much as seventy-five per cent. of all that is generated in their effort to overcome their defects and maintain vision. *This constitutes eye-strain.* With these facts in view it is easy to see that if the eyes consume an amount of the body's supply of nerve force in excess to their natural share some other organ must suffer because the eyes have thus become a leak on the system and have so exhausted the supply of vitality that no organ can perform its functions perfectly, purely from lack of the necessary power to operate it. Then some doctors will find symptoms of deranged functions and treat the symptoms. We proceed to find the cause and remove it and the symptoms will disappear of themselves. There is nothing mysterious about this. No theory is worthy of confidence until it has been practically demonstrated. *More than twenty-seven thousand successful cases*, hundreds of which had tried other methods as practiced by the most eminent specialists, is about the best demonstration of the superior merits of Neurology that could be given.

Consultation of a general nature is always free.

Nobody approaches what we do for the money.

We are always busy, so to avoid waiting, call phone 23543 and make an appointment.

What Do They Read in Norfolk, Va.?

A few magazines, with their favorite author; a trade paper, and then a book. They may read any one of the dozen publications—

But---

—they all do read one paper that is distinctly and peculiarly their own, that has, as far back as they can remember, been an integral, indispensable part of their daily life. That paper is the
